Not Classified	77.80
Universal	5.00
Total Pounds	2,585.24
Total Sent for Recycling	2,582.24

Notes:

This report is created from data gathered at the point of collection. At Your Door Customer Service Technicians record collected from every home.

-Liquid materials are listed in detail reports as gallons.

-Solid items are listed as pounds, feet or each.

-The computer will perform calculations to convert feet, each and gallons to pounds using industry standard weights. For example, 8.5# per one gallon of used oil. Weights of solids are taken from the containers. For example, a 10# bag of fertilizer that would be recorded as 5#.

Paint and other liquids are periodically weighted and the average weight is adjusted in the computer. Future adjustments are made to previous reports.

Electronic items are periodically weighed. The average weights used are subject to revision. Future adjustments may be made to previous reports.

Weights do not include the weight of outbound shipping containers. The difference between total pounds shipped for total pounds collected are materials that are not recycled. These materials may be incinerated, neutralized or sent to landfill. Some acceptable recycling processes can generate residue that is or cannot be recycled for example, contaminants such as paint cans.
