

Illinois Department of Transportation (IDOT) Milling and Resurfacing Project

Work Begins September 3rd and will end late October

Anticipate lane closures and delays - consider using alternate routes when possible

- The project stretches from the “Y” section on Route 72 & W. Main Street to Hayes Road.
- The contractor intends to start the work along the rural area near Hayes road then proceed west.
- The road work involves milling the old asphalt off and installing new pavement.
- Various sidewalks and handicap ramp improvements are intended to start September 9th.

Additional information will be updated when it becomes available.

RG – 8/26/19
