

BULK ITEM COLLECTION RESUMES THE WEEK OF MAY 11, 2020

Waste Management is pleased to announce that we will resume the collection of bulky items in your community the week of May 11, 2020. Bulky items include furniture, mattresses, carpet and appliances.

We respectfully ask that residents with a large amount of bulky items adhere to the volume limits in your community and place these items out over time. This will help our hard-working drivers and collection teams complete all essential waste and recycling collection services each week.

Thank you for your continued patience and understanding.

Waste Management
