TREE PROTECTION PERMIT FORM

The parkway tree protection permit for construction activity is required if there are existing trees located in the City's parkway either in the front yard or the corner yard.

A public tree protection permit is required for any building permit that involves:

- The construction of a new building or structure
- Site improvements
- Any type of remodeling
- Roofing
- Flat work (concrete or asphalt paving)
- Fencing
- Paver brick work
- Other _____

Construction Activity Zone:

- Do not place any type of dumpster, building materials or equipment under a tree.
- Do not clean equipment under any tree.
- Do not make any grade changes, cut or fill under a tree or in the critical root zone that extends 20 feet from the furthest edge of the tree canopy.

It is the responsibility of the contractor and building permit holder as a condition of the permit to protect all public trees (including a neighbor's tree) located on the adjacent parkway/ public right-of-way that may be affected or damaged by construction activities. Any area under a parkway tree extending outward to the end of the tree canopy is designated as the tree protection zone. If a tree extends over a sidewalk or driveway, the protection zone would continue to the end of the canopy.

Depending on the type of construction activity, the City may cordon-off the tree protection area with stakes and ribbon. Once installed, the contractor and the building permit holder would be responsible to maintain the stakes and ribbon throughout the duration of the project. When the work is completed, the permit holder is required to notify the City to have the stakes and ribbon removed.

Upon inspection by the City, failure to meet the above requirements would be an ordinance violation and may warrant a penalty as prescribed in Title 7, Section 4, of the City's Municipal Code and the Public Works Director Public may have the work stopped until the construction activity is guarded with a substantial fence that would be installed by the building permit holder at their cost.

Name: _____ Date: _____ Permit Number: _____

Address: _____

Contact Person: _____ Phone Number: _____

A tentative start date is required. Date: _____ The applicant is also required to contact the Public Works Department, Janice Melton at (815) 784-2271, if the construction activity starts before or after the tentative start date.

TREE PLANTING REQUIREMENTS

New home construction requires a parkway tree(s). The number of trees required to be planted are determined by the length of the property along the street abutting the front yard and the corner yard. The length of both yards are **not combined** and are measured separately to meet the minimum requirement for one parkway tree per 80 feet in length of property for each of the applicable yards. The City will determine the type of tree, the site location, and plant the tree(s) per the Arboricultural Specifications after the occupancy permit is approved by the City subject to the planting schedule. (Spring 3rd wk April – 1st wk June) (Fall 1st wk September – 3rd wk October)

For additional information, please contact the Public Works Department, Janice Melton at (815) 784-2271.

New Home Construction: Yes _____ No _____ (Front Yard Length: _____ FT. - Number of Trees to be planted: _____)

(Corner Yard Length: _____ FT. - Number of Trees to be planted: _____) (**Total number of trees to be planted:** _____)

Number of existing parkway trees: (Front Yard _____) (Corner Yard _____). Is the tree(s) located closer than 15 feet from the proposed driveway approach Yes _____ No _____.

Official Use: Email to JM/C: RG

- For new homes w/out trees, email the plat of survey.
- New homes w/existing trees, email plat of survey and site plan showing driveway.
- Tree protection permit, email the completed permit form.

Requirements for Construction of a Fence

Applicant's Name: _____
Address: _____
Phone Number: _____

Information to be submitted when applying:

- 1. Completed Building Permit Application.
- 2. A plat of survey showing the proposed fence, drawn to scale.
- 3. Fence Information:
 - Type A: Decorative fence, permitted in all yards, not to exceed four feet (4').
 - Type B: Shall not exceed six feet (6') in height for residential districts and permitted only in side and rear yards.
 - a. Height: _____
 - b. Type A or B: _____
 - c. Style of Fence: _____
- 4. Prohibited: a barbed or charged wire, chain link with slat inserts in residential areas, snow fence, fences with less than 9 gauge wire, snow fences, and fences installed creating an obstruction of vision at intersections.
- 5. No fence shall be erected or maintained in a public right-of-way.
- 6. No fence shall be erected in a location within the sight triangle, see UDO pages 6-8.
- 7. No fence shall exceed four feet (4') in height when in a front or corner side yard.
- 8. No walls or chain link fences in the front yard.
- 9. Fencing around outside in the industrial district shall be a maximum of ten feet (10').
- 10. Type A fence may be erected beyond the front building line.
- 11. All fences shall be erected on the confines of the property.
- 12. Fences and safety barriers around swimming pools have additional requirements.
- 13. Post holes minimum of 36" in depth.
- 14. The finished side of the fence must face the neighbor(s) and the rough shall face the applicant/owner.
- 15. **Other pertinent information:** Failed inspections will require a re-inspection fee to be paid prior to scheduling the re-inspection.

Applicant's Signature: _____
Date: _____

Note: The above information comes part of the permit application and compliance is required. Call JULIE at 1-800-892-0123 to locate all underground utilities.

Note: Subdivisions in the City may have covenants and restrictions that are binding on your property. These covenants and restrictions may require permission from the homeowners association or the developer before you begin construction. In some cases, they may prohibit construction of a building that is permitted by the City of Genoa. It is the responsibility of each applicant and homeowner to check the covenants and restrictions that apply to your property. Refer to the Codes, Covenants and Restrictions Compliance forms for Oak Creek, Riverbend or Derby Estates Subdivisions.

What are the benefits of having a building permit?

Increased Value: Your home or business is an investment. If your construction project does not comply with the codes adopted by the City, the value of your investment could be reduced. Property insurers may not cover work done without permits and inspections. If you decide to sell a home or building that has had modifications without a permit, you may be required to tear down the work, leave it unoccupied or do costly repairs.

Protects: A property owner who can show that code requirements were strictly and consistently met, as demonstrated by a code official's carefully maintained records, has a strong ally if something happens to trigger a potentially destructive lawsuit.

Ensures Safety: Your permit also allows the code official to protect the public by reducing the potential hazards of unsafe construction and ensuring public health, safety and welfare. By following code guidelines, your completed project will meet minimum standards of safety and will be less likely to cause injury to you, your family, your friends and future owners.

Fence Permit Fee: \$75.00

Updated July 2020

Fence Regulations

City of Genoa
333 East First Street
Genoa, IL 60135
(815) 784- 2327

Note: Subdivisions in the City may have covenants and restrictions that are binding on your property. These restrictions may require permission from the homeowners association or developer before you begin construction. In some cases, they may prohibit construction of a structure that is permitted by the City of Genoa. It is the responsibility of each applicant and homeowner to check the covenants and restrictions that apply to their property.

Fence Requirements

- The maximum height of a fence in a residential district is 6 feet for fences in rear yards and 4 feet in front yards.
- Refer to UDO Article 6.2 or contact the City for requirements on corner yards.
- Prohibited fences include chain link with barbs up, fences installed creating an obstruction of vision at intersections, electrical fences, barbed wire, chain link fences with privacy strips and fences constructed of less than 9 gage wire.
- The finished side of the fence must face the neighbors.
- All soils excavated from fence holes must be removed from site

Information To Be Submitted When Applying

- Completed building permit application.
- A plat of survey showing the proposed fence location drawn to scale.
- Copy of the contract with the installer.
- Name and contact information for person responsible for construction.
- Information on the style of fence, usually found on contract.
- Height of fence.
- Depth of post holes.
