GENOA-KINGSTON FIRE DEPARTMENT

317 East Railroad Ave.
Genoa, IL 60135
(815)784-3412

To whom it may concern,

The Genoa-Kingston Fire Department would like to request the use of Illinois Route 72 (Main Street) between Sycamore Street and Washington Street for the 2021 Genoa Days Festival. The requested days would be between Tuesday, June 8th (for setup) and early Sunday, June 13th (for teardown). The festival dates this year are scheduled for June 9th through June 12th.

We understand that the Covid-19 pandemic is continuing evolving, and there isn't 100% certainty of what the environment will be like in June, and what mandates may or may not be put in place by the State of Illinois and/or other government agencies. We would, however, like to continue with the process of requesting the use of Main Street in the event that Genoa Days is able to take place.

Feel free to contact the Fire Department if you have any questions pertaining to this request.

Sincerely,

M Moes 1-6-2021

Michael Moes
GKFD Treasurer

Subject: 200' Video Push Camera

I am seeking a motion from the City Council to approve the purchase of a Video Push Camera, rolling center skid, and LED light from Insight Vision not to exceed $6,444. It meets the requirements staff is looking for and it is also the closest vendor which we have found to be important for shipping and obtaining parts for repairs. There are sufficient funds budgeted for collection system maintenance to purchase this item to replace unreparable existing equipment.

Staff obtained three (3) quotes as follows:

- Insight Vision $ 5,995.00 (Wisconsin)
- Ecoinfrastructures $10,000.00 (Kentucky)
- Pro Built Tools $ 3,748.00 (Texas)

These quotes are all for base pricing. Staff would also like to purchase the rolling center skid and LED light kit for an additional $449.00 Purchase amount not to exceed $6,444.00

The camera we have had for the past 20 years is from Sereco. At the time it was the lowest bid and seemed like the best purchase. The problems we experienced were shipping the equipment for repair to California and the turn around time for getting equipment back ran from weeks to months.

The proximity to the manufacturer for repair was a high priority. Other considerations was turn around time from the manufacturing facility in Wisconsin.

The push camera shown has the ability to:

- Record and take pictures during inspection.
- On screen footage counter that will display on screen.
- Built in voiceover video.
- 512 Hz signal to be locatable with a locator.
