

Public Event– Please Plan to Attend

Watershed Goals Workshop

Thursday April 18, 2024 6:00 p.m.

Genoa City Hall

333 East First Street, Genoa, IL

If you live or own property within the Central South Branch of the Kishwaukee River Watershed or the Deer Creek and Bull Creek watersheds (please see map below) you are encouraged to attend a goals workshop on April 18th at the Genoa City Hall. This area is currently undergoing a watershed-based planning process.

People live, work and play in their watershed everyday. Stakeholders like you can provide valuable input to help the Watershed Steering Committee focus on efforts to restore impaired waters and protect unimpaired waters within the watershed. Watershed-based planning will build awareness of watershed issues through education and stewardship while increasing communication and coordination. We need your input to help develop a plan that will provide opportunities for implementation projects within the watershed.

This event is hosted by the Watershed Steering Committee of the Central South Branch of the Kishwaukee River Watershed.

Funding for this project provided, in part, by the Illinois Environmental Protection Agency through Section 319 of the Clean Water Act.
