Watershed Bus Tour

Saturday June 15, 2024 Time 8:15 a.m.– 2 p.m.

The charter bus will load at the Genoa City Hall parking lot 333 East First Street

LUNCH WILL BE PROVIDED

If you live or own property within the Central South Branch of the Kishwaukee River Watershed, the Deer Creek and Bull Run Creek watersheds (please see map below) this is to inform you that the Watershed Steering Committee will be hosting a watershed bus tour on June 15th, 2024 from 8:15a.m.– 2p.m.

Understanding the attributes of the watershed you live in is an important step in how to manage it. We will spend the day visiting with professionals that will provide educational information on treating wastewater, water quality testing in the river, water quality evaluation, Agriculture Best Management Practices, understanding wetlands, and the geology of the watershed.

Past watershed bus tours have proven to be very informative to the participants and we hope that you can spend the day with us. **Registration deadline is June 11, 2024.** Limited to 50 participants. There will be some walking involved as part of the tour.

This event is hosted by the Watershed Steering Committee of the Central South Branch of the Kishwaukee River Watershed.

Funding for this project provided, in part, by the Illinois Environmental Protection Agency through Section 319 of the Clean Water Act.
